"Sherrill and I taught school together for nine years. We talked about real estate and dreamed of working together. One day we did it. We bought our first house and fixed it up. We were hooked with the excitement of making a house a home and helping someone who needed a house without repairs a happy homeowner. Maybe you have a friend and you want to take the plunge into real estate. As a woman you can do it. A woman has a sense of what makes a house a home. We know what needs to be done to make a house sell. Sherrill and I teamed up to work together for fun and profit. We have a combined experience of over 40 years of turning houses that were in need of repairs into homes that buyers loved along with our educational experience to teach other women how to succeed in this business. Let us teach you how to do the same and make big profits."
